

SCHOOL NEWSLETTER BY ROSIE, YEAR 4

Enterprise Week

This week the children have been mixed into different classes and each bay has become a department. The aim was to earn as much money as possible by creating, designing and making a product to sell to the parents for a profit. This was organised so that the children could work with children they have never worked with before and to learn about real life business. My name is Rosie and I am in Year 4. I was excited to be given the opportunity to report on this different school week.

Bay 3 - Stress Balls

Bay 1 were creating stress balls and it became very stressful! Mrs Royce was covered in flour when I got into the classroom! Tyler, Year 6, thought that it was very exciting trying to get the flour from the bottle into the balloon. Elsie May, Year 5, said "I like to work with people who I have not worked with before and I have made a lot of new friends."

Bay 2 – Honeycomb Bees

Bay 2 were making delicious Honeycomb Bees which were covered in chocolate (as were some of the children!) Charlotte, Year 4, said "I like helping the younger ones and dipping the honeycomb into the chocolate." The children were busy making posters as I approached the classroom. Xander, Year 2, "I like working with new people because I learnt new experiences. All the people were really nice."

Bay 3 – Easter Cards

Bay 3 were making chick Easter cards using craft materials to decorate the eggs. The children were working hard and seemed very happy with their colouring. Daisy, Year 5, said "I love doing this because I got to work with a new teacher and now I know different teachers have different ways."

Bay 4 – Peppermint Cream

Bay 4 were making peppermint creams. They planned to sell 5 for £1, or 2 for 50p. A wave of mint hit me as I walked in. Everyone was busy mixing their sugary dough. Amelia from Year 1 said “I loved the mixing. It was the best part.” Ava, Year 6 said “I loved weighing the ingredients.”

Bay 5 – Cheerful Chick Bark

In Bay 5, they were making chocolate bark chick cones. They had to make posters, advertise their product, budget it and make the product. I was looking forward to licking my fingers after melting the chocolate but we were not allowed as other people were going to eat it! Lila, Year 1, said “I liked doing the writing. It was the best part.” Mrs Connell said “I liked seeing different children from different year groups get along, and also see talents I didn’t know they had!” I think Miss Le Beau and Mr Patterson are very competitive and they are certain they are going to win! I agree they are going to win as it’s chocolate – who doesn’t like chocolate? Bradley from Year 6 said “I loved making the adverts. It was fun doing acting.”

Bay 6 – Friendship bracelets

Bay 6 were making colourful friendship bracelets. They used cotton, fake leather and embroidery materials. They also made keyrings. Adele, Year 2 said “It is fun working with other children instead of being with the same people from my year.” Amy, Year 4, said “I like choosing different colours and working with different teachers.” Holly from Year 2 said “Mr Keene was fun and a little bit crazy.” I think this is a true fact!

My Views of the Week

This has been my first Newsletter and I have thoroughly enjoyed it. I enjoyed taking the photos and trying to get a good angle of the children and product. I was able to find out about these products without causing suspicion as each bay questioned whether I was a spy or not. Drew, Year 6 was in charge of producing the art work and I think it is fantastic. I am proud of the teachers and the children that took part to make this week possible.
