

# STREET DANCIN' PIRATES

We're the baddest pirates who sailed the seven seas  
We're so bored with treasure, there's gold up to our knees  
We're all tired of travelling to Mexico and France  
All we ever want to do is dance!

Start up the hip hop beats and let us bust our moves  
We're the thumpin' techno jumpin' stompin' street dancin' pirates!

## CHORUS:

**We can spin around, turning upside down  
Now we're on our knees, and we do the freeze  
We can do a flip, then we do the splits  
We're the thumpin' techno jumpin' stompin'  
Street dancin' pirates!**

We don't need our parrots, don't want to hoist the flag  
We don't use our cutlass, we're fed up being bad  
Throw away the pistols, put on your dancing clothes  
Get the crew together, here we go!

Start up the hip hop beats and let us bust our moves  
We're the thumpin' techno jumpin' stompin' street dancin' pirates!

## CHORUS:

We're the baddest pirates who sailed the seven seas  
We're so bored with treasure, there's gold up to our knees  
We're all tired of travelling to Mexico and France  
We're the thumpin' techno jumpin' stompin'  
Number one, champion... street dancin' pirates!  
(shout) OOOH-AAR!!
